## **Africa Charter Destinations (Outside the borders of South Africa)**

When flying in and out of different countries, guests will have to clear customs at a port of entry. The below mentioned destinations all have their own port of entries. South Africa has multiple port of entries namely, OR Tambo, Lanseria, Polokwane, Pilanesberg Intl. , Kruger Intl. , Upington Intl. , Bloemfontein (Bram Fischer Intl.), King Shaka Intl. (Durban) and Cape Town Intl.

The process is very simple and is handled by our professional and experienced crew and/or handlers at the various airports. Guests and their luggage will be screened by airport security at each port of entry/exit. From there guests will be escorted to the immigration office where their passports will be stamped. Once this is complete guests will be escorted through duty free (at applicable airports) and then to the charter aircraft.

Our Turbine and Jet Range are perfect for these longer international flights.
